## DETAILED ACTION

### *Double Patenting*

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 23-32, 65, and 66 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 21-30, 38, and 56 of prior U.S. Patent No. 6,705,357. This is a double patenting rejection.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 54-64 are rejected under 35 U.S.C. 102(b) as being anticipated by

Frechet.

The Frechet reference discloses a method of treating a surface comprising passing a fluid having a concentration gradient on the surface as claimed (see Example 5 of Frechet).

Claims 67-70 are rejected under 35 U.S.C. 102(b) as being anticipated by Denison.

The Denison reference discloses a method of producing a series of solutions comprising contacting first, second, and third solutions (13, 14, and 18) as claimed (see column 6, lines 20-46).
